TALK OF DIVIDEND ON LOCOMOTIVE STOCK

Great Activity in the Market Gives Rise to Belief That One May Be Declared.

(Special to The Times-Dispatch.)
NEW YORK, October 19.—Rumors that
In December an initial quarterly dividend
of 1 1-4 per cent, would be declared on
American Lecomotive common, accomanled the movement in this stock to-day named the movement in this stock to-day, although there is the best of reason for saying that they did not influence the principal buying. The elimination of Joseph Hoadley from the board of directors also, in the opinion of traders, meant his dissociation from the pool.

A rumor to the effect that the General Electric Company sought to obtain control of the American Locomotive Company, but abandoned the attempt on being

trol of the American Locomotive Company, but abandoned the attempt on being convinced of its fullilty, obtained some oredence, though it met with a general denial. This rumor had it that the holdings then secured formed the basis for Mr. Coffin's election to the Locomotive board, that they were secured at an average price of less than \$40 a share for the common, and were of substantial volume. The explanation of the matter, it is said, however, to be really that

with the manufacture of motors to replace steam engines on some of the railroads, desired representation on the board and participation in the future profits of the competing company. Concerning the advance in the common stock of the American Locomotive, a leading interest in this company says:

"I do not regard the present price as too high in view of the great prosperity in our business. Neither would it be too high even if business should fall off materially. I have no doubt that ultimately prices will seek a considerably higher prices will seek a considerably higher level. As to dividends, that question has never been discussed, as it has been our policy to build up the company financially

"The Player Maid."

Much interest has been aroused here over "The Player Maid." in which Miss Florence Davis is starring and in which she is gaining favorable critical comment wherever she has hitherto appeared. Miss Davis is among the new stars of the season, who bids fair to sain high honors in the stellar field, having youth, beauty and undoubted gifts as a comedian of the first rank. The play is a story of life in England in the eighteenth century, in which the blending of humor and romance forms the principal feature, with a touch of the amoltonal to give the comedy more zeat. The story deals with the adventures of a young actress of London a spolled favorite of society, with a keet wit and a high temper, who masquerades as a young English helress under rather unusual circumstances.

Miss Davis will be seen at the Academy Friday and Saturday with Saturday math nee. "The Player Maid."
